

## Phase 2 Continues

By Dan Derenski, Council President

Week two of Phase 2 has begun. The latest information from the Hernando County Health Department is that increases in testing have indicated that more people have had the virus with little or no symptoms. Hospitalizations and deaths have decreased dramatically.

The NLC good news is more ministry meetings are taking place in the Administration Building. These meetings are still providing Zoom connectivity for those who need or want to avoid contact. Several ministries activities have begun while wearing masks and practicing social distancing.

Please know we are a family and like most families, while we don't always agree with each other, we still love and respect each other. There are many who need our prayers. I ask that when you have feelings of frustration, stop and pray for patience and offer a prayer for those whose suffering is greater than our own.

*Be joyful in hope, patient in affliction, faithful in prayer.*

*Romans 12:12 NIV*
